## HOW CATARRH IS CONTRACTED

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucus membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.
